Live Coloring Book

Christmas class party kit

Color a drawing, take a photo, and watch it come alive on the big screen.

Christmas Village is free through the holidays, so there's nothing to buy for the party.

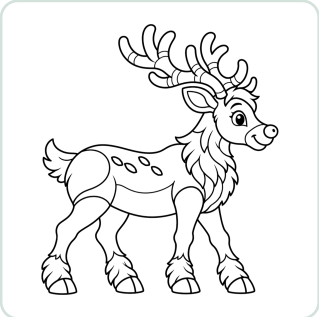

Santa Claus

Mrs. Claus

Snowman

Reindeer

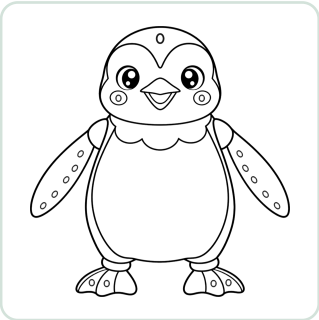

Gingerbread man

Toymaker elf

Teddy bear

Penguin

How it works

1. Print the drawings and color them in.
2. On the computer connected to the projector or TV, open livecoloringbook.com/party and start the party screen in Christmas Village.
3. Scan the code on the big screen with a phone, then tap Photograph paper drawings.
4. Take a photo of each sheet with all four corner squares in it. Each drawing walks into Christmas Village on the big screen.

Scan to start
the party screen

No accounts and no personal data. Photos are read on the phone and never leave it.

Live Coloring Book

Run it in 40 minutes

A plan for the day, from setting up to sharing.

Set up	Color	Photograph and watch	Share

5 min

Set up

Print a drawing for everyone. Start the party screen on the computer connected to the projector or TV, then make it full screen.

20 min

Color

Everyone colors a drawing with crayons, markers or colored pencils. Strong colors that fill each shape come out best.

10 min

Photograph and watch

Scan the code on the big screen with a phone and tap Photograph paper drawings. Take a photo of each sheet with all four corner squares in it, and watch each drawing walk into Christmas Village.

5 min

Share

Look at everyone's drawings together and find your own. When you end the party, anyone can scan the code on the screen to keep their drawing.

Tips for the day

- ✓ Dim the lights. A darker room makes the projector's picture brighter.
- ✓ One phone is enough for everyone. Other phones can join too, by scanning the code on the screen.
- ✓ There's nothing to sign up for and nothing to install.
- ✓ Lay each sheet flat in good light, with all four corner squares in the photo.

Privacy, for schools too

- ✓ No student accounts. Nobody signs up or logs in.
- ✓ No personal data. Nobody is asked for a name, an email address or anything else about themselves.
- ✓ Photos stay on the phone. Each sheet is read on the phone itself, and only the drawing's colors go to the big screen.
- ✓ The host can take any drawing off the screen, and the party closes by itself a day after it goes quiet.
